This is a character sheet created by Wizardawn Entertainment, for use with the Tunnels & Trolls™ 5th edition role-playing game. It contains all of the information you would need to play a character in the game. There is a separate spell sheet for those spell casting characters, which allows them to record all they need for their spells without looking it up in the book during play. There is enough space to record all of your character's inventory, languages, and wealth. There are also sections to record your weapons and armor…complete with statistics for each item. This character sheet is used for the world of Magestykc™, but you may find it useful for your games as well.
